Dealer Hot Water
Pressure Washers

DHS Series — Direct Drive

DH-2003-SE0E2G

Known for efficiency and longevity, these hot water electric pressure washers are built for heavy-duty cleaning on industrial and commercial worksites. They feature a top-fired heat exchanger that is completely accessible.

Pump:

Direct drive triplex piston General or Mi-T-M pump with ceramic plungers | Stainless-steel and brass unloader | Equipped with the Mi-T-M Pressure Relief Start (Mi-T-M pump models) | Forged brass manifold | Thermal relief valve | High pressure detergent injector (Available as an option on SE0E1M and SE0E2M models)

Motor:

Totally enclosed fan-cooled electric motor with manual thermal overload protection | 35-foot power cord

Frame:

Reinforced powder coated steel tube frame with center balanced lift | 13-inch flat-free tires

Components:

Energy-efficient top-fired heat exchanger | No. 1 or No. 2 diesel or kerosene fired burner (Not approved for bio-fuel)

Miscellaneous:

Temperature rise 150°F/66°C above ambient, maximum outlet temperature is 200°F

Unit Includes:

Quick connect nozzles - 0°, 15°, 25° and 40° | 50-foot x 3/8-inch steel wire-braided high pressure hose | Adjustable pressure insulated dual lance | Professional-grade insulated trigger gun with safety lock-off
